

## James R. Quinn, RN, BSN, LCP-C, CLCP, CPB

P.O.Box 1098

Langhorne, PA 19047

Cell: 215-486-4009

Email: [jquinn@medlegalpro.com](mailto:jquinn@medlegalpro.com)

Jim Quinn is a registered nurse and certified experienced life care planner, having developed over 500 reports including life care plans, cost projections, rebuttals, and bill reviews. His life care planning background has had particular focus on accepted costing and coding methodologies. He has received coding training through the American Academy of Professional Coders, and his bill review practice has had primary focus in New Jersey matters, including pre and post Haines decision, as well as NJ PIP Law.

Jim has extensive clinical experience having cared for patients in various life stages from infant to geriatric, and from the emergency room setting to ICU to rehab and discharge home. Additionally, he has served as a consultant to workers' compensation adjusters to determine if the cost of care is reasonable and customary through site surveys, record review, and meeting with providers.

Jim's methodology is consistent when developing his opinions. His recommendations are supported through up-to-date guidelines and evidenced-based data. When determining future costs, his methodology is highly technical and in accordance with accepted costing and coding methodologies. However, during testimony, he explains his methods in an easy to understand and reasonable manner.

Jim has been elected to and currently serves on the executive board of The American Association of Nurse Life Care Planners as the Treasurer.

---
